COMPANY

Zoeller Family of Water Solutions™

## AquaNot 508 Active

This sump pump system takes over when the main power source is interrupted, or the primary pump is not working properly. The powerful Active smart-controller overcomes problems caused by dormancy and system neglect. Connect 24/7 on your phone with Wi-Fi through the new Z Control Platform!

**AirTempo Control**

The new AirTempo Control offers users exceptional functionality and the convenience of a remote control, while also providing substantial time- and labor- savings to installers. Use for new installation and **retrofit** application.

**Linear SteamHead**

The revolutionary, patent-pending Linear SteamHead, with its sleek, slender, horizontal profile, disperses steam evenly, smoothly, and quietly, while remaining all but invisible. Unlike conventional steamheads that protrude into the room and deliver steam from a single exit point, the Linear Steamhead is set flush to the wall and contained

## Nuheat Floor Heating Systems

Stepping on a heated floor makes all the difference, radiant floor heating takes the chill away from your floors and brings warmth and comfort into your home. It adds that little touch of luxury that helps you relax and enjoy the cozy atmosphere in any room you have it installed.

Nuheat Floor Heating Systems combine this great feeling of comfort with innovative and energy-efficient heating technology and thermostats, making sure you get the best out of your heating system.
