The 3M Aqua-Pure 3MFF100 Full Flow Drinking Water System:

- Filters water for drinking, cooking and cleaning
- Reduces particulates, chlorine taste and odor, cyst, lead and select VOC's
- Mounts discreetly under the sink - no end-of-faucet filters ruining your decor
- Flows at rate of faucet-2.5 gpm
- Sanitary Quick Change (SQC) Design for easy cartridge change-outs-twist on, twist off
- Water Quality Association (WQA) certified for sustainability, NSF tested and certified

REQUEST MORE INFORMATION

WARD Flex

The WARD FLEX® corrugated stainless steel tubing (CSST) system revolutionized the gas plumbing industry with a time- and cost-saving solution to the inherent problems of rigid steel pipe in delivery installations. With unrivaled flexibility, WARD FLEX eliminates multiple service points at turns and connections and ensures reliable flow from gas meters to appliances, giving professional contractors a smart alternative to black-steel pipe and other CSST products. For detailed information, visit our [literature/downloads](#).

Product Features

- Wide range of tubing sizes and coil lengths
- Double annealing for maximum flexibility
- Continuous run coils
- Helium- and vacuum-tested
- Easy customization options
- CSA certification for single-family, multi-family, commercial and industrial use

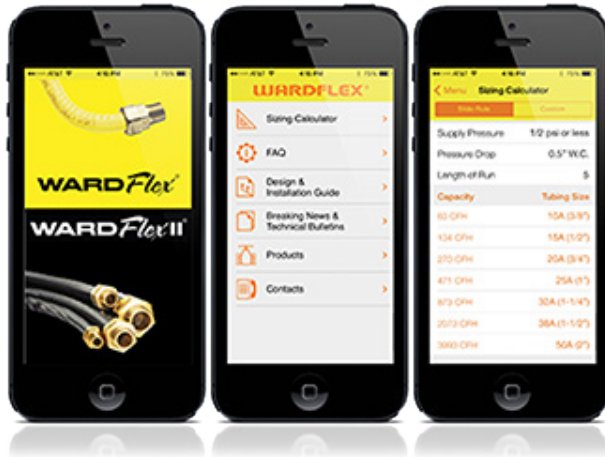

WARD Flex II

MORE INFORMATION

The next generation of CSST, WARDFLEX® II was engineered to help mitigate damage caused by the transient arcing of lightning-induced energy inside buildings. This ultra-durable piping system delivers all of the benefits of the original WARDFLEX system, with a new conductive coating that disperses the electrical energy induced on tubing when an arc occurs between the CSST and another metallic system. For detailed information, visit our [literature/downloads](#).

FREE DOWNLOAD FROM THE GOOGLE PLAY STORE AND APPLE APP STORE FOR IPHONE AND IPAD

The WARDFLEX® Jobsite Assistant App allows installers to easily calculate WARDFLEX® tubing sizes – on the jobsite – with just the touch of a finger! Simply input the values and the app will calculate the flow capacity for each size of WARDFLEX® CSST.

FEATURES:

- VIRTUAL "SLIDE RULE"
- SIZING CALCULATOR
- FAQ
- DESIGN & INSTALLATION GUIDE
