IN STOCK

**NEW**

#### LINEAR STEAMHEAD

The revolutionary, patent-pending Linear SteamHead, with its sleek, slender, horizontal profile, disperses steam evenly, smoothly, and quietly, while remaining all but invisible. Unlike conventional steamheads that protrude into the room and deliver steam from a single exit point, the Linear Steamhead is set flush to the wall and contained almost entirely inside it.

#### NUHEAT CABLE

Nuheat Cable is a floor heating system that allows contractors to instantly make on-site adjustments to the floor heating coverage for any room including those with curves and angles. Nuheat Cable can be also used to heat wet areas such as shower beds and benches or saunas.

**NEW**

#### SIGNATURE THERMOSTAT

The industry's first WiFi enabled floor heating thermostat. The programmable thermostat can be controlled using a mobile smart phone app (iOS and Android) or web browser. The Nuheat SIGNATURE now works with Nest.
